

# Homework for Friday's Revision Session

On Friday we will do an exam technique session on the water and carbon cycle topics. In preparation for Friday's session you are to make sure you have revision notes for the following areas completed:

- ❖ Trans-boundary water resources
- ❖ Water conflicts
- ❖ Factors modifying the carbon cycle
- ❖ Global reliance on fossil fuels – economic development
- ❖ Increasing demand for energy, and impact on the carbon cycle

Go back through your notes from our lessons and make sure you have lots of information on examples and case studies.
